

Boheme Opera NJ is one of the oldest opera arts organizations in New Jersey. Since its earliest endeavor in 1989, the company's mission continues to be to make world-class musical performance accessible and available in the New Jersey-Pennsylvania region through opera, concerts and outreach.

What started as a conversation in a church parking lot has blossomed into a 22-year tradition of sharing the operatic art with audiences of all ages through performance and education. The company continues to build on its heritage of giving voice to new talent and making opera fresh to experienced audiences, while relevant to a new generation of operaphiles.
